FRESH NEW FACES BEHIND EXCITING NEW EPICUREAN ENDEAVOURS

LOVE THROUGH THE AGES AT 23LOVELANE HOTEL

The perfect setting is crucial to igniting the spark of passion, which is why 23LoveLane Hotel is one of the most romantic stays in Penang. The main complex of the 10-room boutique hotel comprises four distinct buildings, each of which exudes a unique charm: the 150-year-old Anglo-Indian Bungalow, Straits Eclectic Building, 1920s Jack Roof Annex and the Indian Shop House.

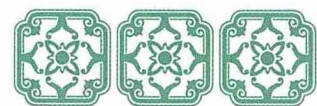

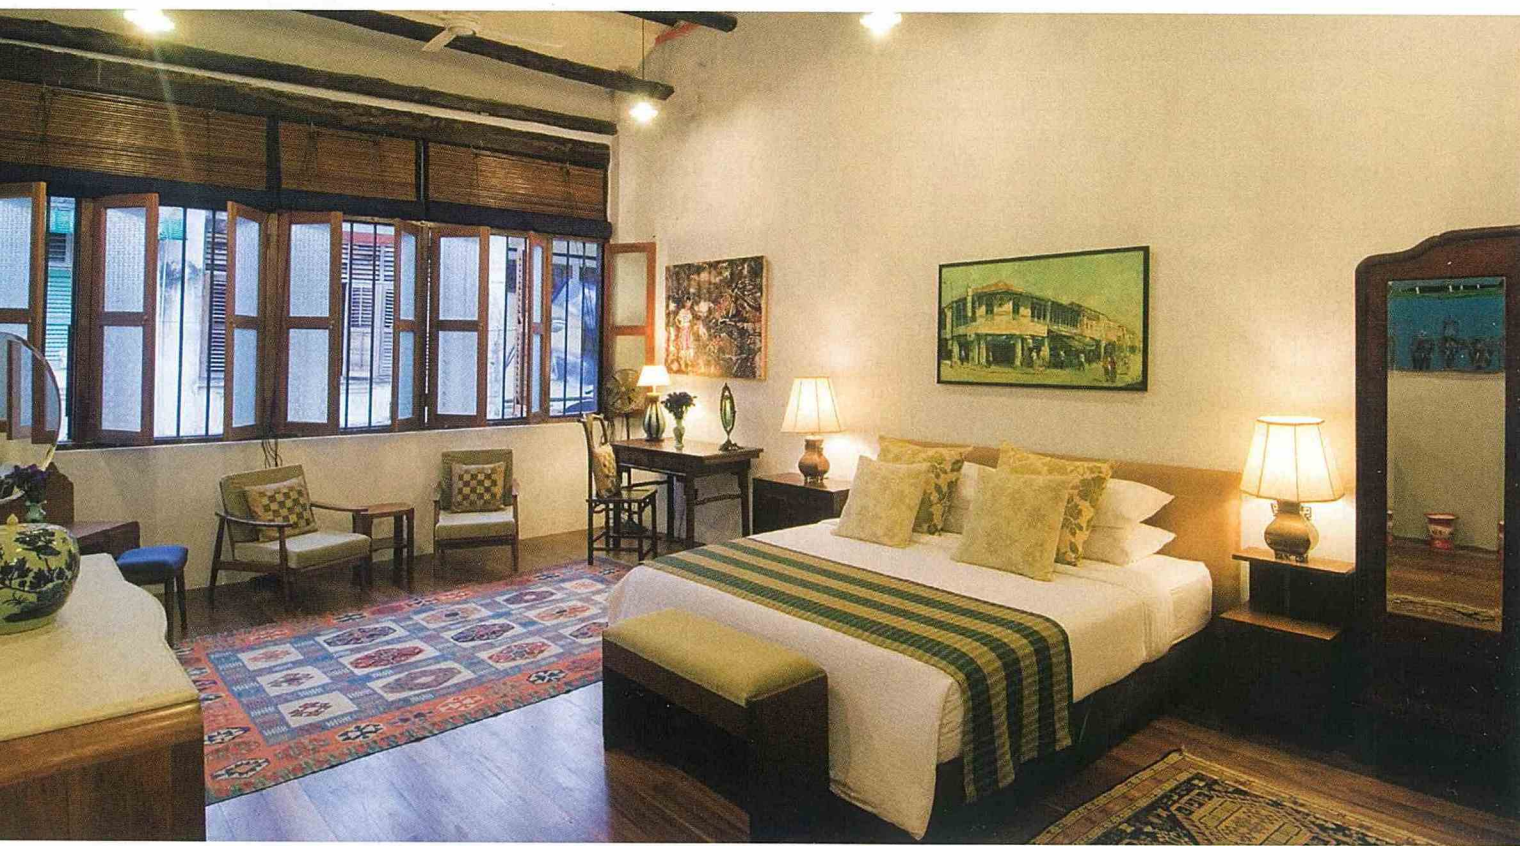

With bold colour palettes and various art pieces giving the décor character, the property is a visual feast. Each room is fully air-conditioned, Wi-Fi capable and furnished with a mix of vintage and new furniture, retaining the best of their heritage appeal without sacrificing modern conveniences. Newer additions to the collection include the three-room Muntri Suites, a pre-war shophouse just a few minutes away from the main building, as well as Stewart Suite, a one-bedroom duplex just around the corner.

Couples will love the privacy offered by The Garden Room in the Anglo-Indian Bungalow, which can only be accessed through a gravel path away from the main building and has an en-suite outdoor shower room. Otherwise, step it up a notch and book the Stewart Suite with its fully equipped kitchenette, living and dining area and even a Jacuzzi! Imagine preparing a romantic meal for two and relaxing with your loved one in the Jacuzzi with a glass of wine as the sun sets.

Other scenic spots to indulge in the company of your significant other at 23LoveLane Hotel include the Chinese Indian Terrace, which looks over the garden courtyard and is a great place to enjoy a nightcap. Challenge your partner to a board game at the vibrant Library in the Anglo-Indian Bungalow, and take a nighttime stroll in the landscaped garden, which takes on a dreamy quality with soft lighting in the evening.

Thoughtfully restored and tastefully appointed, 23LoveLane Hotel will make you fall in love all over again.
